

# Metro.

**The Metro Series range is all about clean lines and a contemporary look. It is a stylish and heavy-duty range, suitable for residential and architectural applications.**

Metro is our premier range developed for parts of New Zealand that are more susceptible to harsher climates and demanding environments; Metro Series offers toughness and durability.

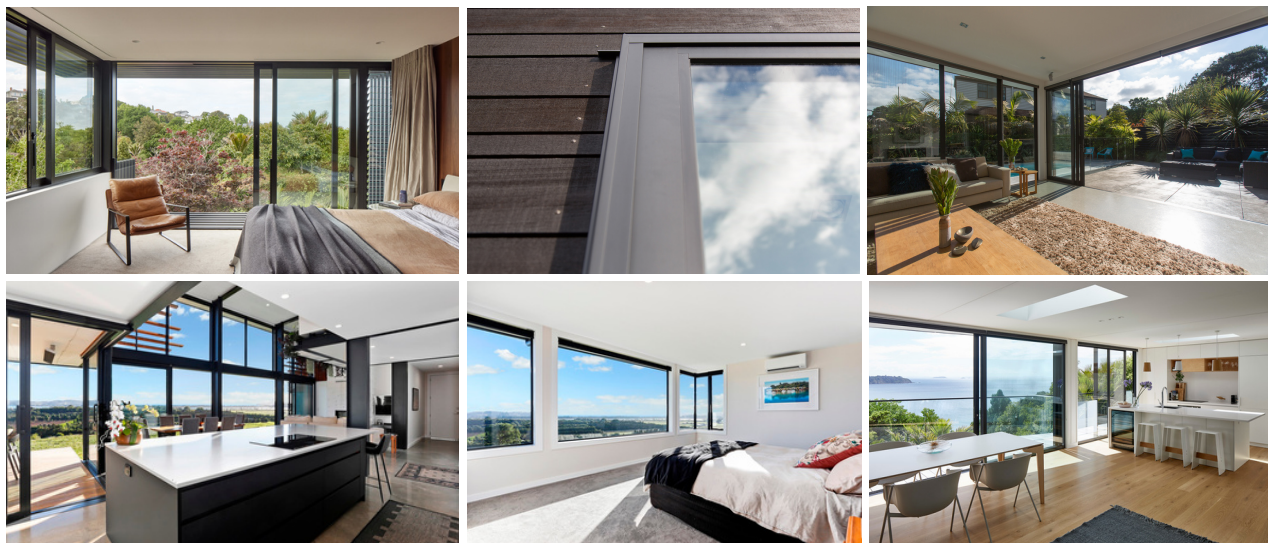

Frames and profiles feature clean, flat surfaces for a modern appearance. Metro series has been designed to provide an uncluttered minimalist aesthetic.

*ThermalHEART is a polyamide insulator that has been stitched into the core of every ThermalHEART window and door to minimise cold and heat transfer. Interior comfort just got a whole lot easier and a lot more affordable. Ask us for the ThermalHEART introduction brochure.*

# Simple, functional, minimalistic windows and doors designed for New Zealand's climates
